EXPERIENCE

Front-End Web Developer | CacheFirst | San Francisco, California, United States | January 2024 - Present

- Developed the CacheFirst project utilizing service workers to implement a caching strategy, resulting in a 50% improvement in load times for repeat visits and enhancing user experience significantly.
- Developed and maintained user interfaces using modern frontend technologies like React, enhancing application aesthetics and usability.
- Implemented responsive design techniques and integration with backend, to ensure seamless experiences across devices, improving overall user satisfaction.

Front-End Lead Engineer | Algoalliance | Silicon Oasis, Dubai | October 2021 - May 2024

- Led a small team of frontend developers, ensuring efficient project workflows and high-quality deliverables.
- Integrated front-end applications with Node.js, Nest.js, GraphQL, and Web3, enhancing functionality and user experience.
- Reviewed pull requests and managed the codebase, maintaining code quality and project consistency.
- Directed front-end development for projects such as Centher.io, app.centher.io, Algoalliance, Algoalliance Web, APEX Order, Ecopaw, and Niftables, leveraging frameworks like React, Next, and Tailwind CSS to enhance user experience and increase application responsiveness.

Front-End Web Developer | WebbsAI | Lahore, Pakistan | May 2024 -July 2024

- Designed and developed user interface components and interactive features for WebbsAi using JavaScript, enhancing user engagement with visually appealing and intuitive design.
- Integrated front-end elements with backend systems for WebbsAi , reducing load times and improving overall system efficiency, leading to an increase in user satisfaction scores.
- Engineered extensive interactions using iframe and canvas elements in the WebbsAi project, enhancing interactive functionalities which boosted user interactivity..

Front-End Web Developer | BizzClan | Lahore, Pakistan | August 2022 - September 2023

- Built the user interface for both the client and administrative sides of the project, focusing on intuitive navigation and aesthetic consistency, which enhanced user engagement and streamlined management tasks.
- Integrated APIs with the client-side of the application, ensuring seamless data exchange and functionality, which improved operational efficiency and user satisfaction.
- Utilized a robust stack including React, Next.js, JavaScript, TypeScript, Git, and Tailwind CSS to develop and maintain responsive user interfaces, significantly enhancing application aesthetics and usability across various devices.
- Developed and maintained front-end for projects like Reilitics, EzBuilder, and Blackbooking and their Admin Panels.

Front-End Web Developer | Ardentbay | Karachi, Pakistan | February 2022 - August 2022

- Handled the design, development, and integration of complex system components.
- Ensured robust functionality and a seamless user interface that improved operational efficiency and user engagement.
- Developed a comprehensive mortgage market system using React.js and Redux, which facilitated smoother client transactions and improved user interface responsiveness.

EDUCATION

Bachelor of Science in Computer Science | The Islamia University of Bahawalpur | Bahawalpur, Pakistan | 2021
